

THE FEDERATION

of Animal Care and Control Agencies

November 14, 2005

On behalf of the Federation of Animal Care and Control Agencies I present this letter of appreciation and accreditation to Dr Christine Wilford, President of "Feral Cat Spay/Neuter Project" and Julie White, Executive Director for their vision, dedication, and passion in reducing the number of homeless cats through free spay/neuter surgeries.

Congratulations on altering 20,000 felines. You play a very important role in helping to reduce pet overpopulation in this region.

Don Jordan, President

Washington State Federation of Animal Care and Control Agencies
